

Improving the Health Sector Performance with Innovative Utilization of Structural Funds

EUREGIO III project 4th Master Class Programme

The fourth Master Class Programme on Health investments in Structural Funds is based on reliable and robust knowledge.

This is a collaborative effort of the **EUREGIO III project (led by Health ClusterNET)**, the **Health Services Management Training Centre, Semmelweis University Budapest (HSMTC)** and the **IFROSS Health Care Management Center - Lyon**, to provide high quality learning experience for health sector managers, policy makers and government officials from Europe.

This Master Class programme arises from the project EUREGIO III which has received funding from the European Union, in the framework of the Public Health Programme.

EUREGIO III supports the innovative approach of using Structural Funds for health. The general objective of the project is to identify & share good practice and lessons learned for the **effective use of structural funds** for health & help reduce health inequalities among EU regions. It is a key resource to help Member States, regional & local authorities and actors to develop, apply & implement Structural Funds projects for health gain.

The language of the training is **English**.

TARGET GROUPS

Potential participants of the course are policy makers and decision makers on the national and regional level; health planners; national and municipal representatives; members of development agencies; participants of national, regional and local development projects; executive managers, clinical and financial directors of health care institutions; policy and technical experts from relevant fields (systems designers, architects, economists, technology advisors, etc.)

HOSPITAL TOUR

Participants of the Master Class are kindly invited to visit a well known hospital in Lyon. The tour will showcase a newly built hospital in the city. During the tour we will study some elements of the health infrastructure development and will observe the complexity of a hospital building project.

Information

COSTS OF THE TRAINING:

The tuition fee of the course is **240 €**.

This fee includes tuition, course materials, coffee breaks and lunch during the days of the training. On the first evening an optional welcome dinner will be held at a renowned restaurant. Participation at the welcome dinner costs 50 €.

Participants (or their funding agency) will be responsible to cover the costs of travel, accommodation and subsistence while in Lyon.

We can recommend hotels that are close to the venue of the training.

DEADLINE FOR APPLICATION:

To secure a place for the training, please complete the attached application form and return it back to us no later than

26th of August 2011

The application form is also available at the following Internet sites:
